

API plan 52 / 53 – Thermosyphon Pot

Robust, low maintenance and highly reliable Seal Support System.

Specification:

- Design pressure: 16 Barg / 45 Barg.
- Test pressure: 24 Barg / 67.5 Barg
- Design temp. : Upto 115°c
- Working volume: 9/12/15 Ltrs
- Material: SS316
- Industry Accepted Design: Meets the requirements of ASME VIII Div 1 and complies with PED 2014/68/EU

Standard Offering:

- Thermosyphon Pot with Cooling coil
- Weldpad Level Gauge
- Pressure Gauge
- Stainless steel braided hoses (2 off)
- SS 316 Adjustable Stand (1.5-2Meter)

Optional:

- Hand Pump
- Accumulator
- Pressure Transmitter
- Lever switch or transmitter
- Circulation pump
- Temperature Gauges
